

Goodwe Announcement for AS4777.2:2020

AS/NZS4777.2:2020 Solar Inverter Standard takes effect from 18th of Dec, 2021. All solar inverters installed after Dec 18th, 2021 must be compliant with the new standard and listed on the CEC by the due date.

During the transition period, the model names listed on CEC approved inverter website have a (AS4777.2:2020) suffix to show these inverters have been approved with AS/NZS4777.2:2020.

Customers must clear out stock compliant to AS/NZS 4777.2:2015 by 18/12/2021. In the meantime, customers can install inverters with the certificate AS/NZS 4777.2:2020.

The following models of Goodwe inverter **will** be certified to the new AS/NZS4777.2:2020:

Goodwe XS series
Goodwe DNS series
Goodwe TDS series
Goodwe MS series
Goodwe SDT G2 series
Goodwe MT series
Goodwe ES series
Goodwe SBP series
Goodwe EH series
Goodwe ET series
Goodwe SMT series

Please note: Regarding SMT & MT, there may be a small gap between Dec 18th and the relisting of these inverters.

This model **will NOT** be re-certified to the new AS4777.2:2020.
Goodwe LDT 5-20kW

All Goodwe inverters compliant with new AS/NZS4777.2:2020 standard will be marked with a relevant sticker on the box marked as AS/NZS4777.2:2020 to clearly distinguish they are compliant to the new standard.
